ACKNOWLEDGEMENT TO REFEREES

Acknowledgement to referees

© Springer-Verlag Berlin Heidelberg 2017

The Editorial Board of *Acta Neuropathologica* is grateful to the following referees for their invaluable advise and support (Jan 01, 2016–Dec 31, 2016).

Referees are requested to submit evaluations within 14 days, and most of them have been considerably faster, resulting in an average time of 10.4 days between submission and first decision. This extremely short turnaround time has been possible only with the support of dedicated referees who have submitted not only prompt but also careful and fair reviews. We are deeply grateful to those colleagues who spent their time, creativity and energy to make this journal even better. Those reviewers with an asterisk have reviewed three or more papers in 2016.
