The authors note that due to a printer's error, in the text immediately following Eq. (2a), $\mathbf{F(X)} = (\mathbf{f(x)}, \ldots, \mathbf{f(x)})$ should have read $\mathbf{F(x)} = (\mathbf{f(x_1)}, \ldots, \mathbf{f(x_N)})$.

They also note that, due to a change in notation during copy editing, the same notation $\mathbf{x}$ has inadvertently been used for the (dN)-dimensional argument of P and the d-dimensional argument of p; see for example Eq. (4) and the text immediately before it.
