Erratum to:
B. Bozic et al. (Eds.):
Computational History and Data-Driven Humanities
DOI: [10.1007/978-3-319-46224-0](https://doi.org/10.1007/978-3-319-46224-0)

Unfortunately by mistake, the lightning talk “The levelled approach - Using and evaluating text mining tools AVResearcherXL and Texcavator for historical research on public perceptions of drugs” by Berrie van der Molen, Lars Buitinck, and Toine Pieters was not included in the volume. It can be accessed at <http://arxiv.org/abs/1701.00487>. The conference chairs and team acknowledge that this error was not a result of any actions by the authors.

The updated original version of the frontmatter can be found at DOI: [10.1007/978-3-319-46224-0](https://doi.org/10.1007/978-3-319-46224-0)
