Ecophysiological Studies of Sonoran Desert Plants

**II. Seasonal Photosynthesis Patterns and Primary Production
of *Ambrosia deltoidea* and *Olneya tesota***

S.R. Szarek and R.M. Woodhouse

Oecologia (Berl.) **28**, 365–375 (1977)

The last but one sentence of the “Summary” on page 365 must read:
“On a per plant basis gross production was estimated to be 1.14 and 20.34 kg
dry wt plant⁻¹ yr⁻¹ for *A. deltoidea* and *O. tesota*.”
