

## **CORRIGENDUM: A NEW EXPERIMENTAL APPROACH TO MACH'S PRINCIPLE AND RELATIVISTIC GRAVITATION**

**James F. Woodward**

In the above-mentioned paper, which appeared in *Found. Phys.* **3**, 497–506 (1990), the following corrections should be made:

1. In the title "GRAVIATION" should read "GRAVITATION".
2. In line 14 of page 500 "to" should be "To".
3. In Eq. (7) " $\nabla \cdot \mathbf{a}$ " should be " $\nabla \cdot \mathbf{A}$ ".
4. In Eqs. (9) and (10) " $4\pi G\rho$ " should be " $-4\pi G\rho$ ".
5. In the sentence leading to Eq. (11) " $\Phi_c/c^2 = \beta$ " should be " $\Phi_c/c^2\rho = \beta$ ".
6. In lines 10 and 12 on p. 504 "plastic capacitors" should be "Plastic Capacitors."
7. For "event horizon" everywhere read "particle horizon."
