

NOTES AND COMMENTS

ANDROPOV

Under the title, 'Marx-Lenin-Andropow. Ideologischer Lagebericht nach dem Führungswechsel in Moskau', Dr. Helmut Dahm has published (Bericht 32–1983 des Bundesinstituts für ostwissenschaftliche und internationale Studien) a study on the degree to which Yuri Andropov got involved in ideological matters. According to Dr. Dahm, this involvement was a matter of the old question of antagonistic and non-antagonistic contradictions. Despite the disappearance of Mr. Andropov, Dr. Dahm's study remains interesting for its account of recent developments in scientific socialism.
