

## **Errata: Properties of a Three-Dimensional Poisson–Voronoi Tessellation: A Monte Carlo Study**

**S. Kumar, S. K. Kurtz, J. R. Banavar, and M. G. Sharma**

*Received October 23, 1992*

1. Page 526, footnote 5

$d(\log_e x)$  instead of  $dx$ .

2. Page 540, paragraph 2, line 3

$\log_e x_{50} = 2.7226$  instead of  $x_{50} = 2.7226$

3. Page 547, paragraph 2, line 4

$\log_e x_{50} = -0.0735$  instead of  $x_{50} = -0.0735$

4. Page 548, paragraph 4, line 3

$\log_e x_{50} = 1.7436$  instead of  $x_{50} = 1.7436$
