

Obituary

Otto Haupt, March 5, 1887 – Nov. 10, 1988

The Editorial Board notes with deep regret the recent death of Professor Dr., Dr. h.c. mult. Otto Haupt at the age of 101 years, 8 months and 5 days. Professor Haupt has been a founding member of our Board and, in that capacity, was a constant source of advice and help.

As a mathematician he will be remembered for his many contributions. On the occasion of his one hundredth birthday, *Aequationes Mathematicae* published papers dedicated to him in two volumes and in an additional double issue. Two issues contained an article describing his contributions and lists of his 13 books and 188 papers (*Aequationes Math.* 32 (1987), 1–18 and 35 (1988), 125–131). It should be noted that four of Professor Haupt's books and sixty-seven of his papers were published when he was over seventy, the last when he was 100 years old, a remarkable achievement.
