P R E F A C E

The second part of the Conference on "Differential Geometrical Methods in Mathe-
matical Physics" of 1979 was held in the *Facultad de Ciencias de la Universidad de
Salamanca* from September 10th to 14th, 1979.

The members of the International Advisory Committee were: K. Bleuler (Bonn), H.
D. Doebner (Clausthal), D. Galletto (Torino), B. Kostant (M.I.T.), A. Lichnerowicz
(College de France), K. Maurin (Warsaw) and S. Sternberg (Harvard & Tel-Aviv).

The second part of this volume includes 21 talks grouped into four Chapters:
Gauge Theories; Quantization and Symplectic Structures; General Relativity; Classi-
cal Field Theory and Analytical Mechanics.

The organizers would like to express their gratitude to all participants for
their contributions and cooperation and to Springer-Verlag for its readiness to
publish these proceedings.

We would like to acknowledge the financial support of the *Ministerio de Univer-
sidades e Investigación,* the *Consejo Superior de Investigaciones Científicas,* the
Rectorado de la Universidad de Salamanca and the *Dirección de los Cursos Internacio_
nales de la Universidad de Salamanca,* which have made the celebration of this Confe_
rence possible for the first time in Spain.
