We have recently been alerted to errors in Table 1 of this publication. We have re-analysed the primary data and provided a corrected and expanded version of Table 1. We wish to draw attention to the findings that demonstrate a significant association between being a victim of violent

crime and the following socio-demographic and clinical variables; (a) younger age, (b) homeless status in the last 12 months, (c) substance abuse or dependence, (d) being arrested in the last 12 months, (e) impaired social and occupational functioning. Neither sex nor chronic course of disorder were significantly associated with victim status. We apologize for errors in the original publication, and request that readers take the corrections into account when reading the original publication.

Table 1 Number of subjects who were victims of violence in the last 12 months, by risk factors

Risk factor	Levels ^a	Victims of violence in last 12 months		Model 1	Model 2
		Yes	No	OR (95% CI)	OR (95% CI)
Age	39 years and below	103	399	1.63* (1.15, 2.29)	1.62* (1.14, 2.28)
	<i>40 years and over</i>	63	397		
Sex	Female	63	324	0.89 (0.63, 1.26)	0.95 (0.67, 1.35)
	<i>Male</i>	103	472		
Homeless in the last 12 months	Yes	40	66	3.51* (2.27, 5.43)	3.46* (2.22, 5.39)
	<i>No</i>	126	730		
Substance abuse and dependence	Yes	91	308	1.92* (1.37, 2.69)	1.84* (1.29, 2.64)
	<i>No</i>	75	488		
Arrested in the last 12 months	1 and more times	40	60	3.89* (2.50, 6.06)	3.68* (2.32, 5.82)
	<i>0 times</i>	126	736		
Impaired social and occupational functioning ^b	Yes	146	584	2.65* (1.62, 4.34)	2.73* (1.65, 4.50)
	<i>No</i>	20	212		
Chronic course of disorder	Yes	76	336	1.16 (0.83, 1.62)	1.26 (0.89, 1.78)
	<i>No</i>	90	460		

Model 1 unadjusted, *Model 2* adjusted for age and sex, *OR* odds ratio, *95% CI* 95% confidence interval

* Significant findings shown in bold ($p < 0.01$)

^a Reference level in italics

^b Impaired social and occupational functioning (SOFAS) based on dichotomised cut point greater than and equal to 70 score with 'slight or no impairment' and less than 70 score with 'poor functioning'
