Unfortunately, the Acknowledgement and Conflict of interest section has been published as blinded version. The complete version is given below:

Acknowledgments The authors want to thank Nicolai Thun-Hohenstein, Fabian Plachel, and Jakob Schanda for their assistance and participation in this study.

Conflict of interest The TKA system GMK[®] Primary was designed by Medacta International S.A., Castel San Pietro, Switzerland, in cooperation with the senior author, who will receive royalties for his contribution regarding the design of the implant. W.A. is a consultant for Medacta. However, Medacta had no influence on study design, data collection, interpretation of the results, or the writing of the final article. There was no external funding source for this study.
