The Editors-in-Chief of *Osteoporosis International* would like to alert readers that the conclusions reached by this review article may be questionable, as they are based, in part, on two cited works that have been retracted:

- Jamal SA, Goltzman D, Hanley DA et al. (2009) Nitrate use and changes in bone mineral density: the Canadian Multicentre Osteoporosis Study. *Osteoporos Int* 20(5): 737–744. doi: [10.1007/s00198-008-0727-7](https://doi.org/10.1007/s00198-008-0727-7)
- Effect of nitroglycerin ointment on bone density and strength in postmenopausal women: a randomized trial. *J Am Med Assoc* 305(8) : 800–807. doi: [10.1001/jama.2015.18431](https://doi.org/10.1001/jama.2015.18431)

Consequently, readers are advised to interpret the conclusions reached in the article with caution.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s00198-012-2262-9>.
