**Erratum to: Mar Biol**  
**DOI 10.1007/s00227-011-1833-1**

The second, third and fourth formulae on page 4 under heading “Abalone responses to benthic habitat types” were published with some errors. The correct formulae are given below:

Proportion of rock covered in ERA  
= area of ERA/rock area

Proportion of rock covered in other habitat types  
= (rock area – area of ERA)/rock area

Expected proportion of abalone on each habitat type  
= proportion of rock covered in habitat type
