Erratum to: *Pediatr Radiol* DOI 10.1007/s00247-013-2813-z

On page 132, the first sentence under the heading “Injury response” contains erroneous citation numbers. The correct citations are as follows:

“A reliable histopathological indicator of fracture healing is the accumulation of hypertrophic chondrocytes at the site of injury [7, 8].”

Citations #34 and #35 are not referenced elsewhere in the paper.

The original version of the article contained typographical errors in two citations. The correct citations are:

35. Pavlov S, Petrov I (1972) Morphometric characteristics of bones of the extremities in newborn infants. *Gegenbaurs Morphol Jahrb* 117:145-161 [publication year corrected]
39. Kleinman P, Belanger P, Karellas A, Spevak M (1991) Normal metaphyseal radiologic variants not to be confused with findings of infant abuse. *AJR Am J Roentgenol* 156:781-783 [journal volume corrected]

The online version of the original article can be found at <http://dx.doi.org/10.1007/s00247-013-2813-z>.
