The authors regret that they neglected to include Drs. Marguerite T. Parisi (Seattle Children's Hospital; Seattle, WA) and Barry L. Shulkin (St. Jude Children's Research Hospital; Memphis, TN) as co-authors on this work. Dr. Parisi should be listed as the 10th author and Dr. Shulkin as the 11th author. Drs. Parisi and Shulkin conducted the central review of baseline MIBG scans that was integral to the completion of this study as well as review of final text. They have no competing interests to declare relevant to this work.
