The March 29, 2014, review article by Hentrich et al. entitled "Therapy of HIV-associated lymphoma - Recommendations of the oncology working group of the German Study Group of Physicians in Private Practice Treating HIV-Infected Patients (DAGNÄ), in cooperation with the German AIDS Society (DAIG)" (Ann Hematol, online March 29, 2014) contained an error. In the section "Diffuse large B-cell Lymphoma", line 3, at the end of the first sentence, the level of evidence was incorrectly stated. It should read "Six cycles of R-CHOP-21 are standard of care (AII)" instead of "Six cycles of R-CHOP-21 are standard of care (AIII)". The authors apologize for the mistake.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s00277-014-2058-4>.
