In the original article, Fig. 3 was published incorrectly by the publisher. The correct Fig. 3 is given below. The original article is updated with the correct figure.

Fig. 3 Fourier spectrum of an \bar{I}_{SLIP} image prior to low-pass filtering. Intensities are shown as normalized logarithmic magnitude $\log(|F|)$. Parameters \tilde{u} and \tilde{v} denote the coordinates in the frequency domain. ①–③ identify prominent frequency components. The \tilde{v} - and BLPF-profile is shown at centerline $\tilde{u} = 0 \mu\text{m}^{-1}$. Red camera channel shown at ambient flow temperature. Statistics based on 50 samples
