Erratum to: Clim Dyn (2017) 49:563–574
DOI [10.1007/s00382-016-3358-2](https://doi.org/10.1007/s00382-016-3358-2)

In the original publication of the article, the upper axis of Fig. 6 showing the physical distance was incorrect. For example, the physical distance corresponding to 50 grid points on a 0.45° grid mesh at 45° latitude is approximately 2500 km.
