In Table 3 of the original version of this article, there is an error in line 19: By mistake, C22:1 ω 9 is recorded as cis-13,16-docosadienoic acid, while it should have been recorded as cis-13-docosenoic acid. This mistake does not interfere with any of the fatty acids sums or proportions recorded, and it is not found anywhere else in the text or the tables.
