**Erratum to: Trees (2015) 29:1423–1430**  
**DOI 10.1007/s00468-015-1222-3**

The original version of Fig. 8 was first published in “Papadopoulos AM (2013) Resin Tapping History of an Aleppo Pine Forest in Central Greece. The Open Forest Science Journal, 6 (Suppl 1: M5), pp 50–53” under the terms of the Creative Commons Attribution Non-Commercial License (<http://creativecommons.org/licenses/by-nc/3.0/legalcode>).

The figure was copied and modified without including appropriate reference to the original author and article. The new figure labeling is erroneous and the legend is misleading. The figure shows a cross section of *Pinus halepensis* Mill, not *Pinus massoniana*, and the wound occurred before 1995.

The authors regret this error and apologize for any confusion and inconvenience this may have caused.
