Correction to: Archives of Women's Mental Health

<https://doi.org/10.1007/s00737-019-0941-7>

The current sentence is in the discussion (sub-section The role of pre-conception maternal depression) and reads: “Pre-conception treatment of mental health issues is also associated with substantial savings in health care costs (Chojenta et al., 2018).”

The correct sentence should read: “Given the high health care costs associated with pre-conception mental health issues, effective pre-conception intervention may yield cost savings (Chojenta et al., 2018).”

The online version of the original article can be found at <https://doi.org/10.1007/s00737-019-0941-7>
