Study period reported in the originally published article had an error. Please find below the corrected text. Please note that this did not affect the conclusion of the published article.

The study period was 24 months, between January 1st 2010 and December 31st 2011. Death associated with fungemia was calculated using the author's hospital sample (104/240). Regarding mean incidence, it was calculated by making a ratio between the number of isolates received from each hospital by the number of patients admitted (published on Administração Central do Sistema de Saúde, <http://www.acss.min-saude.pt/>) during the same period of time. Ilse Fontes (Hospital de Santa Luzia, Elvas) is missing at Acknowledgments section.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s10096-014-2194-8>.
