The data points of storage modulus (G') and loss modulus (G'') above 130 °C in Figs. 14(a) and 14(b) were imprecise because the sample of M-SIBS flowed in rheological test when the test temperature is above 130 °C. Therefore, the data points above 130 °C in Figs. 14(a) and 14(b) need to be deleted. The corrected version of Figs. 14(a) and 14(b) is provided below. The descriptions in Figs. 14(a) and 14(b) are not changed, and thus additional text corrections are not needed. The authors apologize for any inconvenience caused.
