We regret that the units of measure in Table 1 given by Kotha et al. (2016) are wrong. The correct units are (m/s^2) instead of (g). Therefore, the correct version of the note at the bottom of Table 1 is “Units of estimated PGV is (m/s), PGA and SA (T) are estimated in (m/s^2)”. As a consequence, the values on the vertical axis of Figures 5, 6, and 7 are also in (m/s^2) and not in (g).
