Unfortunately the below acknowledgements were wrongly omitted from the original publication during the publication process.

Acknowledgments Brown and Nicholls were supported by the UK Natural Environment Research Council (NERC), under the QUEST programme (grant number NE/E001882/1). Lowe was supported by the AVOID programme (DECC and Defra) under contract GA0215.

For the sea-level rise patterns we acknowledge the international modelling groups for providing their data for analysis, the Program for Climate Model Diagnosis and Intercomparison (PCMDI) for collecting and archiving the model data, the JSC/CLIVAR Working Group on Coupled Modelling (WGCM) and their Coupled Model Intercomparison Project (CMIP) and Climate Simulation Panel for organising the model data analysis activity, and the IPCC WG1 TSU for technical support. The IPCC Data Archive at Lawrence Livermore National Laboratory is supported by the Office of Science, US Department of Energy.

We thank Anne Pardaens and Ivan Haigh for comments and assistance in constructing the sea-level rise scenarios.
