Matthew S. Sussman, MD, is a third year general surgery resident at the University of Miami/Jackson Memorial hospital. He completed his MD at Florida International University. Matthew is currently completing a two-year research fellowship at the Ryder Trauma Center. His research focuses on trauma clinical outcomes and resident education. Over the course of his fellowship has also worked closely with the Army Trauma Training Detachment at the Ryder Trauma Center preparing forward surgical teams for downrange surgical resuscitation. Matthew is also currently enrolled in a dual accredited MBA in healthcare management and policy. He has teamed up with data scientist to create an artificial intelligence platform that autonomously aggregates pricing and quality information on healthcare services to suggest optimal products to patients based on their personal health insurance and demographic information. He hopes to pursue a career in vascular surgery.
