Acknowledgements We wish to thank our colleagues Patrik Lilja, Catarina Player-Koro, Anna-Lena Godhe, and Thomas Hillman at the University of Gothenburg for their contributions on the debate concerning computational thinking and their Blog-post, published in 2016, <https://lit.blogg.gu.se/2016/04/28/programming2/>, of which the discussion in this study draws. This research is a part of a larger research project named “Aprender a Programar en Primaria: Hacia la construcción de tecnologías para la inclusión social” (PICT 2016-1530) funded by the Argentinian Agencia Nacional de promoción científica y tecnológica (ANPCyT-FonCyT).
