#### Letter to the Editor

**An error about TACIT MODELS and INFINITY by Tevfik İşleyen**

**DOI [10.1007/s10649-010-9295-9](https://doi.org/10.1007/s10649-010-9295-9)**

This letter to the editor was published online in the interest of open dialogue. However, the author's perceptions are not accurate, and this misconception was addressed already by Fischbein himself, and by other scholars who followed up on his work, e.g., by Dina Tirosh.
