The Emma Castelnovo Award Committee is pleased to announce that nominations are being accepted for a new ICMI award named after Emma Castelnovo, an Italian mathematics educator born in 1913, in celebration of her 100th birthday and honoring her pioneer work. She died in April 2014.

This award will consist of a medal and a certificate, accompanied by a citation, and will be awarded once every 4 years (and not once every 2 years as is the case with the ICMI Klein and Freudenthal awards). The recipient of the first award will be announced early in 2015, and the award will be conferred at the 13th International Congress on Mathematics Education in July 2016 in Hamburg, Germany. The awardee (or its representative in the case of an institution, project, or organization) will be invited to present a special lecture at the Congress.

The Emma Castelnovo Award will celebrate outstanding achievements in the *practice* of mathematics education. It will honor persons, groups, projects, institutions, or organizations that have done exceptionally excellent and influential work in our field.

For details of the evaluation criteria and the nominations process, see <http://www.mathunion.org/icmi/activities/awards/call-for-proposals-for-the-first-emma-castelnovo-award/>.

All nominations must be sent by e-mail ([jkilpat@uga.edu](mailto:jkilpat@uga.edu)) to the Chair of the Committee no later than December 15, 2014.
