The original version of this article unfortunately contained an error. In pages 7 and 8, the reference citation “Lægaard 2016: 13-14” must not be included in the quote.

The quote should be read as:

Symbolic religious establishment is wrong when it communicates that religious identity is a component of civic identity – of what it means to be a citizen of that state -, and thereby deny civic status to those who do not endorse that identity, who are then treated as second-class citizens. (Laborde 2017: 135)

The original article has been corrected.
