The original version of this article unfortunately contained a mistake. The data in the third column of section “Strange

Stories: Physical Mean (& SD)” of Table 3 should be 13.6 (2.1); instead it was incorrectly published as 14.1 (2.1). Also there is an error in the next section of the table. It should be Frith-Happé animations instead of Smith-Happé animations. The corrected Table 3 is given below.

The online version of the original article can be found under doi:[10.1007/s10803-017-3080-x](https://doi.org/10.1007/s10803-017-3080-x).
