Erratum to: J Gen Philos Sci (2013) 44:63–67 DOI 10.1007/s10838-013-9208-6

The original publication of Alexander Gebharter’s “Solving the flagpole problem” (in vol. 44, no. 1, 2013) contains two typos.

In step 3 of the SGS algorithm presented on p. 65 there appears a ‘Y’ instead of a ‘Z’ twice. In particular, step 3 of the SGS algorithm should read as follows: “For all $X, Y, Z \in V$: If $X \rightarrow Y \rightarrow Z$ (or $X \rightarrow Y \leftarrow Z$) and X and Z are non-adjacent (not $X \rightarrow Z$), then orient $X \rightarrow Y \rightarrow Z$ (and accordingly $X \rightarrow Y \leftarrow Z$) as $X \rightarrow Y \leftarrow Z$ in the graph resulting from step 2 if and only if X and Z are probabilistically dependent conditional on every subset M of $V \setminus \{X, Z\}$ with $Y \in M$.”

The online version of the original article can be found under doi:[10.1007/s10838-013-9208-6](https://doi.org/10.1007/s10838-013-9208-6).
