Erratum to: J Clin Immunol (2016)
DOI 10.1007/s10875-016-0253-x

The original version of this article unfortunately contained mistakes in Table 1. It shows 1 arrow pointing down to the left of “Affinity FcγRIIB” instead of 2 arrows pointing up. Also, some question marks are missing. In addition, the authors would like to amend the term “Fucosylation” under the header “Glycosylation” to “Afucosylation”. The correct version is presented below.

Table 1 Effect of Fcglycosylation of human IgG to binding affinities to human FcγR

Glycosylation	Functional effect
Bisecting GlcNAc	Unknown
Galactosylation	↑Affinity FcγR? Affinity C1q? ↑Dectin1 association with FcγRIIb?
Sialylation	↓Affinity FcγR? ↓Affinity C1q ↑DC-SIGN?
Afucosylation	↑↑Affinity FcγRIIIa ↑↑Affinity FcγRIIIb Other FcγR?

The online version of the original article can be found at doi:10.1007/s10875-016-0253-x.
