Correction to:

Journal of Inorganic and Organometallic Polymers and Materials (2019) 29:745–757
<https://doi.org/10.1007/s10904-018-1048-8>

elemental analyses, XRD, and other techniques, as well as the optical properties (UV–Vis–NIR and emission) of the monoliths.

The original version of this article unfortunately contained a mistake. There was an error in chemical formula 5 on page 754. It should read as:

After the article was published, we investigated Ni nanoparticles in layered compounds and discovered the above error. This typographical error does not alter the conclusions of the published article, which reports hydrothermal synthesis and a model proposed based on the analytical results by
