The Editor-in-Chief of *Journal of Theoretical Probability* has found that a duplicate of “Convergence of Weighted Sums for Arrays of Negatively Dependent Random Variables and Its Applications” by Jong-Il Baek and Sung-Tae Park, *Journal of Theoretical Probability*, Volume 23, Issue 2, pages 362–377, was submitted simultaneously on May 31, 2008 to both this journal and *Journal of Statistical Planning and Inference* and was published, with the explicit consent of the authors, in *Journal of Statistical Planning and Inference* many months after it was published in this journal. One of the conditions of submission of a paper for publication is that authors declare explicitly that the paper is not under consideration for publication elsewhere. This article thus represents a severe abuse of the scientific publishing system.

For this reason, the Editor-in-Chief of *Journal of Theoretical Probability*, in agreement with the publisher, hereby retracts this article.

The online version of the original article can be found under doi:[10.1007/s10959-008-0198-y](https://doi.org/10.1007/s10959-008-0198-y).
