Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

In the original publication of the article, Figure 1 included footnotes which duplicated information appearing in the figure caption. Therefore the notes of “NOTES: ASD = autism spectrum disorder; MBDD = mental, behavioral, or developmental disorder. Indicators presented are unadjusted estimates. ^x Significantly different than youth with autism spectrum disorder based on adjusted odds ratio ($p < .05$). ^y Significantly different than youth with other mental, behavioral, or developmental disorders based on adjusted odds ratio ($p < .05$).” have been removed. The figure 1 appearing in the original version of the article has been corrected.
