

## VI International Conference "Physical Chemistry of Plant Polymers"

VI International Conference "Physical Chemistry of Plant Polymers" will be held in Arkhangelsk, 22–25 June 2015.

### Organizers

Ministry of Education and Science  
of Russian Federation  
M. V. Lomonosov Northern (Arctic) Federal  
University (NArFU)  
Federal Agency of Scientific Organizations

Russian Academy of Sciences  
Institute of Environmental Problems of the North,  
Ural Branch of RAS (IEPN UB RAS)  
Russian Foundation for Basic Research  
Government of Arkhangelsk Region

### Program Committee

Chairman, Academician of RAS V. V. Lunin (Russia)

prof. E. L. Akim (Russia)  
prof. K. G. Bogolitsyn (Russia)  
prof. I. P. Deineko (Russia)  
prof. D. Evtuyugin (Portugal)  
prof. A. P. Karmanov (Russia)

prof. E. V. Kudryashova (Russia)  
prof. T. Rosenau (Austria)  
prof. A. P. Sinitsyn (Russia)  
prof. A. Treimanis (Latvia)  
acad. of RAS V. N. Charushin (Russia)

### Organizing Committee

assoc. prof. A. V. Gur'ev  
assoc. prof. N. S. Gorbova  
assoc. prof. D. S. Kosyakov  
prof. T. E. Skrebets  
prof. Yu. G. Khabarov

### Scientific Program

The Conference will be devoted to analysis of the results of basic studies in the field of chemistry and chemical technology of plant polymers.

Scientific Directions of the Conference:

- Physical Chemistry of Lignin and Lignocellulosic materials;
- Prospects for Lignin's Modification; Utilization of Lignin-based Products;
- Modern Instrumental Methods for Study and Analysis of Plant Polymers;
- Scientific Basis for Modern Ways of Wood Delignification. Application of Supercritical Fluids in Chemistry of Plant Polymers.

Oral plenary/sectional and poster sessions will take place within the International Conference. Proceedings of the International Conference will be published.

School for Young Researchers will take place within the framework of International Conference.

Working languages – Russian and English.
