Please note the following errors in this article:

On page 231: The next to last sentence of the first paragraph should read “The view in planes parallel to the x – y plane is the view an observer looking at the Sun would see (a plan view, as in Figures 1 and 4–6).”

On page 235, the Alfvén Mach number should read $M_A = U(\rho^{1/2})/B$.

The publishers apologise for these mistakes.
