Erratum to: Age (2012) 35(3): 597–608
DOI 10.1007/s11357-012-9390-1

This article has been retracted by the authors as they were unable to reproduce some of the data and therefore consider them unreliable.

To the editor of Age:

The NIH found that Dr. Fei Gao engaged in research misconduct by fabricating and/or falsifying data in

Figures 1-7 and Table 2 in “Aging decreases rate of docosahexaenoic acid synthesis-secretion from circulating unesterified α -linolenic acid by rat liver. Gao F, Taha AY, Ma K, Chang L, Kieseewetter D, Rapoport SI. Age (Dordr). 2012 Mar 3,” and therefore I request a full retraction of this paper. Please note, none of the other authors were implicated in any way.

Stanley I. Rapoport
