

# Correction to: Factors Associated with the Receipt of Follow-Up Care Among Medicare Beneficiaries Discharged from Inpatient Psychiatric Facilities

Jonathan D. Brown, PhD, MHS  
Nadia Bell, BA

Correction to: *Journal of Behavioral Health Services & Research* 2022  
<https://doi.org/10.1007/s11414-022-09810-7>

In the online publication, the first sentence in the Results section incorrectly reads:

Across IPFs, 28% of Medicare beneficiaries received follow-up care within 7 days of discharge had their records transmitted to the next provider within 24 h of discharge based on the Timely Transmission of Transition Record measure (median = 68%; range 0 to 100% across IPFs).

Should be replaced with:

Across IPFs, 28% of Medicare beneficiaries discharged from an IPF received follow-up care within 7 days (median = 26%; range 0 to 81% across IPFs) and 50% of those discharged had their

---
