Correction to: *Air Qual Atmos Health*.

<https://doi.org/10.1007/s11869-017-0470-3>

The original publication contained the following errors.

In Volume 10 Issue 6 page 784, the last two sentence of the second paragraph under subheading “Meteo-climatic data and back-trajectory calculation”, the comma between velocity” and Eight should be a period. The last two sentence should read “The vertical motion calculation method was selected to “Model vertical velocity”. Eight runs were computed for every 2 days of sampling at 6-h intervals.”

In Fig. 1, the word Ross Sea was double printed in the bottom of the image. The corrected Fig. 1 is reproduced here.

The online version of the original article can be found at <https://doi.org/10.1007/s11869-017-0470-3>
