### Erratum to: Clin Orthop Relat Res DOI 10.1007/s11999-016-4968-z

One of the authors of the study, “What Change in American Shoulder and Elbow Surgeons Score Represents a Clinically Important Change After Shoulder Arthroplasty?” listed the incorrect dollar amount range in his conflict of interest statement.

The correct conflict of interest statement for David M. Dines MD should be: “One of the authors certifies that he, (DMD) or a member of his immediate family, has or may receive payments or benefits, during the study period, an amount of USD 100,001–USD 1,000,000 from Biomet, Inc (Warsaw, IN, USA).”

The authors apologize for the error.
