The author wishes to indicate the following correction to the referenced article. Under the heading "Biochemical and Hormonal Studies", in the second paragraph, the sentence "Serum levels of total thyroxine (T4) (Art. no. IM1447), total triiodothyronine (T3) (Art. no. IM1699-IM3287), and estradiol (E2) were estimated by radioimmunoassay (RIA) technique using solid phase coated tubes and tracer labeled with <sup>125</sup>I (purchased from Immunotech, Beckman Coulter Company, USA). Serum parathormone hormone was determined by chemiluminescence technique according to [27]" is incorrect.

It should have read:

Serum levels of total thyroxine (T4)(Art, No. IM1447), total triiodothyronine (T3)(Art, No. IM1699-IM3287) and estradiol (E2)(Art, No. A21854) were estimated using radioimmunoassay (RIA) technique using solid phase coated tubes and tracer was labeled with I<sup>125</sup> purchased from Immunotech, A Beckman Coulter Company (Radiova 1,102 27 Prague 10, Czech Republic). Serum parathermone hormone was determined using chemiluminescence technique according to [27].
