**DOI 10.1007/s12035-014-9081-2**

Jiajun Cui and Anne-Marie Overstreet of Department of Cancer and Cell Biology, University of Cincinnati (UC), OH, USA contributed to paper writing and experimental design thus they were listed as co-authors of the paper.

However, the Department of Cancer and Cell Biology of UC indicated that it may not be appropriate to include the Department of UC as an affiliating institute based on the following considerations:

- 1) The study was not performed in UC and the listed authors worked on this manuscript in their spare time which was not associated with their job in UC.
- 2) A published paper should not list the Department in an affiliation without acknowledging a faculty in the Department.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s12035-014-9081-2>.

<sup>2</sup> Beijing Friendship Hospital, Capital Medical University, Beijing 100050, China

The Department therefore requested us to remove the affiliation of the Department and UC from this publication. After a discussion, all the authors including Jiajun Cui and Anne-Marie Overstreet agreed to do these changes.

The author's sincerely apologize and do hereby publish this correction note to exclude Jiajun Cui and Anne-Marie Overstreet of Department of Cancer and Cell Biology, University of Cincinnati (UC), OH, USA, as authors of this article. Their contributions will be mentioned on the acknowledgment of the article as stated below.

### Acknowledgments

We are grateful to Jiajun Cui and Anne-Marie Overstreet for their advice, discussion and editor assistance. This work was supported by the grant from the National Natural Science Foundation of China (31271154, 31171032), National Basic Research Program (2010CB912003), the Development Project of Science and Technology sponsored by Beijing Education Committee (KM201310025001), and the Specialized Research Fund for the Doctoral Program of Higher Education (20111107120011).
