Correction to: Mol Neurobiol

<https://doi.org/10.1007/s12035-019-01669-8>

The original version of this article unfortunately contained a mistake in Fig. 7d. The authors observed that the image of the GFAP/DAPI in the saline-treated wild type mice (WT Saline) was inadvertently rotated left 90-degree by mistake. The corrected representative image is given below.

This correction does not change the values of quantification and the text of the figure legend, results, discussion, and conclusion. We apologize for any confusion caused to the readers.

The online version of the original article can be found at <https://doi.org/10.1007/s12035-019-01669-8>
