The authors would also like to acknowledge Rajkumar Sethi for his contribution towards the study planning, implementation and execution.

The authors have noticed an error and omission since publication of their manuscript.

Under the methods section (sixth paragraph, second sentence) the text “Each symptom/sign was assessed on scale of 0–3 (0 = absent, 1 = mild, 2 = moderate, 3 = severe) with a maximum score of 18.” should read: “Each symptom/sign was assessed on scale of 1–4 (1 = absent, 2 = mild, 3 = moderate, 4 = severe) with a maximum score of 18.”
