### Erratum to: Water Qual Expo Health DOI 10.1007/s12403-014-0113-y

In the original paper two references are not correct.

The first one is: “Kanakoudis V, Tsitsifli S (2013) Using the bimonthly wb of a non-fully monitored water distribution network with seasonal water demand peaks to define its actual nrw level: the case of Kos town Greece. *Urban Water*. doi:[10.1080/1573062X.2013.806563](https://doi.org/10.1080/1573062X.2013.806563)”.

The abbreviation wb should be given as “Water Balance”. Therefore the correct reference is: “**Kanakoudis V, Tsitsifli S (2013) Using the bimonthly Water Balance of a non-fully monitored water distribution network with seasonal water demand peaks to define its actual NRW level: the case of Kos town Greece. *Urban Water*. doi:[10.1080/1573062X.2013.806563](https://doi.org/10.1080/1573062X.2013.806563)”.**

The second reference is: “Kanakoudis V, Tsitsifli S, Samaras P, Zouboulis A (2013a) Assessing the performance of urban water networks performance assessment results across the EU Mediterranean area: the paradox of high NRW levels and absence of NRW reduction measures planning. *Water Sci Technol: Water Supply* 13(4):939–950”.

The correct paper title is: “**Kanakoudis V, Tsitsifli S, Samaras P, Zouboulis A (2013a) Assessing the performance of urban water networks across the EU Mediterranean area: the paradox of high NRW levels and absence of respective reduction measures. *Water Sci Technol: Water Supply* 13(4):939–950**”.
