In this article the number "15" in the Bin_Freq equation in page 8 must be replaced with "150". Replace the epsilon in the equation with quotation marks in page 9. Given here are the correct equations.

$BIN_Freq = "$ < 150 " if weekly frequency from 75 to 150 minutes
" \geq 150 " if weekly frequency over 150 minutes

$$BIN_ID = \begin{cases} " < 40" & \text{if aged less than 40 years} \\ " \geq 40" & \text{if aged greater than or equal to 40 years} \end{cases}$$
$$BIN_Renda = \begin{cases} " < R\$ 8 \text{ thousand}" \\ " \geq R\$ 8 \text{ thousand}" \end{cases}$$

The original article has been corrected.
