### Erratum to: Conservation Genet Resour DOI 10.1007/s12686-016-0576-1

Unfortunately in the original publication of the article, the third sentence in the abstract was published erroneously as “The European eel is currently classified as “Critically

Endangered”, and export out of Europe has been suspended since March 2009”. The corrected sentence should read as “The European eel is currently classified as “Critically Endangered”, and export out of Europe has been suspended since December 2010”.

---

The online version of the original article can be found under doi:[10.1007/s12686-016-0576-1](https://doi.org/10.1007/s12686-016-0576-1).
