Correction to: Diabetes Ther (2019) 10:697–712  
<https://doi.org/10.1007/s13300-019-0585-7>

In the original publication, Figure 7 legend was incorrectly published as “A breakdown of preference for the comparator PN (black), no preference (grey), and preference for the investigational PN (white), in all groups combined, in all VAS questions”. The correct legend is given below.

Fig. 7 A breakdown of preference for the comparator PN (white), no preference (grey), and preference for the investigational PN (black), in all groups combined, in all VAS questions.
